## Pantone Color of the Year 2011

Courageous. Confident. Vital. A brave new color, for a brave new world. Let the bold spirit of Honeysuckle infuse you, lift you and carry you through the year. It's a color for every day – with nothing “everyday” about it.

## Juicy Jewel Tones

Phlox

Emberglow

Bamboo

Deep Teal

Phlox a magical, deep purple with a hint of mystery, is an outstanding statement when used on its own. Radiant Emberglow, a traditional autumnal tone, emanates the warmth of a glowing fire. Bamboo, a surprising fall hue, brings a warm, exotic flavor to the season. Like a filtered sunset on the waning days of fall, Bamboo is a standout yellow with a subtle green undertone. Deep Teal, a strong, blue-toned green, suggests ocean depths and the color of the sky as daylight descends into darkness.

## Natural Neutrals

Coffee Liqueur

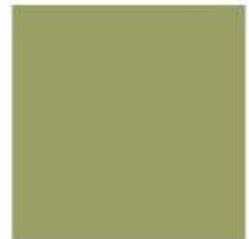

Nougat

Orchid Hush

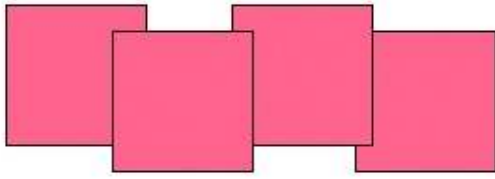

Quarry

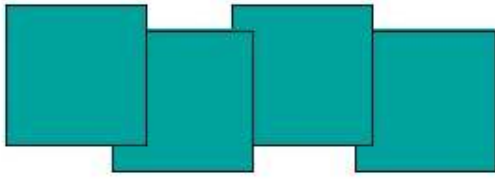

Cedar

Consumers continue to add stability to their lives with neutrals. Rich, decadent Coffee Liqueur brings a sense of elegance to fall, and is a savory alternative to basic black. Nougat is a deliciously warm camel tan, while Orchid Hush is a unique tone of gray with complex orchid undertones, blends well with any other color in the palette. Quarry, a reliable medium blue, remains, as always, a practical, dependable staple. Evoking the freshness of a cool mist in a dark forest, Cedar is a versatile, mid-tone neutral green.
